

issues led to entire human work force to resort to indefinite strike from 20<sup>th</sup> of April 2010 which was deferred after few hours after negotiated settlement with Hon'ble MOC. One of the assurances given by the Hon'ble MOC was for immediate procurement of 10 min. GSM lines equipment. But the BSNL is reported to, has only floated tender only for 5.5 min. lines which would not be sufficient even for the requirements of the next six months.

Therefore we urge upon you to explore your good influence so as to ensure that the BSNL management immediately come forward to save the BSNL from technology crunch by procuring 10 million lines Equipment immediately and further more subsequently.

2. **Waiver of 3G and BWA Spectrum Charges:-**

Consequent upon bidding for 3G Spectrum by the Private operators, the BSNL was asked by the DOT to pay spectrum charges. We are surprised to know that the BSNL management has hurriedly paid around Rs. 10,000 crore and contemplating to pay another Rs. 10,000 crore for Broadband wireless Access (BWA) charges.

These states of affairs would make the BSNL empty pocket and gradually would force it to die.

Therefore we urge upon you to use your good influence for waiving spectrum & BWA charges in favour of the BSNL for few years.

3. **Merger of 78.2% IDA w.e.f. 01.01.2007:-**

Kindly make it convenient to ensure 78.2% IDA merger for revised pay fixation in respect of executive and non-executive employees as assured on 20<sup>th</sup> April 2010 by the Hon'ble MOC that there would be no discrimination within the same company.
